

Do you own or work in a Dairy Farm?

Implement these
biosecurity measures

Location and Design

Maintain a
minimum
distance of 2
km of farm from
habitation

Construct
well-ventilated farm
buildings

Houses should be
concrete with a
minimum wall
height of 5 ft

Movement

Restrict
unauthorized
entry to the farm

Provide safety
gears to all
personnel
entering the farm

Disinfect and
clean vehicles
before
transportation

Cleaning and Disinfection

Clean your
farms daily

Establish
efficient
waste
collection
& disposal
system

Clean
utensils and
equipment
daily

Avoid
sharing
equipment
with others
