

How to eliminate waste safely?

Segregate waste in the correct bin!

Yellow Bin

Human & animal anatomical waste, liquid waste and other biological infectious waste

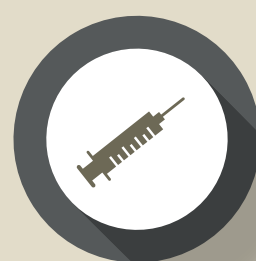

Red Bin

Plastic bottles, intravenous tubes and catheters, cannulas, syringes without needles

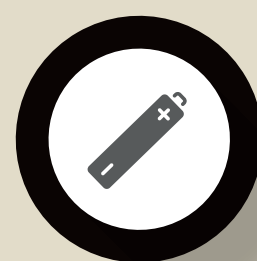

Blue Bin

Broken and discarded vials, bottles, slides, and glass petri dishes

Grey Bin

Waste sharps such as needles and blades

Black Bin

Used containers of disinfectants and pesticide, used tube light, and alkaline batteries
